Healthcare and biotechnology

Airmax has been the key partner of the largest domestic and international pharmaceutical manufacturer and distributor companies operating in Hungary. Our employees have a high-level knowledge of pharmaceutical goods as well as their handling requirements. They work in accordance with the good transportation practice (GTP) and have passed the GTP exam. Being a member of the Hungarian Biotechnology Association, Airmax has sufficient knowledge and experience to ensure that the cool chain is kept intact & biotechnological research materials - requiring extreme precision and responsible treatment - reach their destination on time without any damage.

In the last 20 years we have accumulated a professional routine and practice allowing us to fully comply with the strict regulations and requirements of the Healthcare and Biotechnology industry. Airmax Cargo is the Hungarian member of the UK based PHARMAFREIGHT worldwide network.
