Servier, founded in 1954, is the first independent pharmaceutical group. We are present in 148 countries. As a foundation Servier reinvests 25% of its turnover in research each year.

Servier is celebrating its 25 years with research in Hungary. Having the only fundamental research center outside of the mother country operated in Budapest, and also its international clinical research center responsible for the whole region. Group Servier has its innovative affiliate and several production sites located in Hungary as well. Servier has an official “Strategic Partner of the Hungarian Government” status as its operations in Hungary are strategically important.
